A PROVIDER OF LEADING
EDGE OPEN-SOURCE
SOLUTIONS TO MODERN
PROBLEMS

What is AstroSonic?

We are a budding community of open-source developers with nothing but computing devices, coding competency and big dreams in our minds. The reason why we all unite here is to leverage technology and automation to build cool applications and services as a solution to modern day problems all while learning from the experiences and having fun. No matter how old you are or how experienced you are at developing software – we do realize that there is a first time for everything.

What is Hacktoberfest?

Hacktoberfest® is open to everyone in our global community. Whether you're a developer, student learning to code, event host, or company of any size, you can help drive growth of opensource and make positive contributions to an ever-growing community. All backgrounds and skill levels are encouraged to complete the challenge.

You win a
limited edition
Hacktoberfest
Tee or get to
plant a tree as a
reward for your
contributions!

Hacktoberfest is **FREE FOR ALL**

JUST MAKE **FOUR QUALITY PULL REQUESTS IN ANY GITHUB REPO**

To earn your Hacktoberfest tee or tree reward, you must register and make four valid pull requests (PRs) between October 1-31 (in any time zone). PRs can be made to any public repo on GitHub, not only the ones with issues labeled Hacktoberfest. If a maintainer reports your pull request as spam or behavior not in line with the project's code of conduct, you will be ineligible to participate.

Get started with just four easy steps

1

REGISTER FOR HACKTOBERFEST

Head over to
<https://hacktoberfest.digitalocean.com/>
and register as a participant.

2

ENROLL FOR OUR OFFICIAL EVENT

Head over to
<https://organize.mlh.io/participants/events/4659-hack-astrosonic>
and enroll as an attendee.

3

MAKE FOUR QUALITY PULL REQUESTS

Pick a GitHub repository of your choice and make four quality pull requests against those tagged with Hacktoberfest label.

4

GET A LIMITED EDITION HACKTOBERFEST TEE

Or plant a tree (which would be maintained) as a reward for your contributions to the open-source community.

Contribute to our projects

WE HAVE ISSUES WE WOULD LIKE YOU TO WORK ON

astrosonic/ sanctuary
